

ND AFTERSCHOOL NETWORK

Mission

We equip North Dakota afterschool programs with the tools and support to expand program quality, build leadership capacity, and ensure access to afterschool programs for all youth in their community.

Vision

All North Dakota students have access to high-quality programs to ensure youth, families, and communities are successful.

What we do

The North Dakota Afterschool Network is committed to increasing access to high-quality out-of-school time programming for youth ages 5 - 18 across ND to increase positive youth outcomes, support working families, and strengthen our state's current and future workforce.

A statewide program of the South East Education Cooperative (SEEC), the Network provides training, technical assistance, implementation support for the ND Quality Standards for Out-of-School Time Programs, policy, and advocacy support to schools, programs, and communities. We work to align systems to increase access and quality.

Quality

- ND Quality Standards for Out-of-School Time Programs
- Professional Development
- Technical Assistance & Coaching

Sustainability

- Advocate for local, state & federal funding
- Program Start-up Guide
